

Group III, claims 30-35, characterized by the Examiner as being directed to  
“a system evaluating an image quality comprising a movable image  
sensor to capture the first set and second set images of a moving test  
pattern and a control and processing unit to monitor the luminance  
characteristic of the first set of images, and evaluate the image  
quality.”

In response, Applicant elects Group I, claims 16-19, for further prosecution in this  
application.

Applicant reserves the right to file a divisional application on non-elected  
claims 20-35.
